

Comprehensive Student Health Insurance Solutions for 2021-2022

Is Your College or University Prepared for the Upcoming Year?

The pandemic continues to affect our lives each day, and the new school year will have more students relying on their school for a well-rounded student health insurance plan (SHIP). Schools should be prepared for:

- More students without health insurance
- More students without adequate health insurance
- More students looking for more affordable and comprehensive health insurance

To ensure you're fully prepared to handle these changes and the increasing needs of students and their dependents, the Coalition offers SHIPs that are specifically designed to help higher education institutions of any size provide the same exceptional benefits as the biggest schools in the country. Through UnitedHealthcare Student Resources and FirstRisk Advisors, the Coalition plan delivers an affordable solution that spreads risk across 20 states, over 75 schools, and more than 10,000 students.

Getting to Know the Coalition Consortium Student Health Program

- Member schools receive comprehensive COVID-19-related benefits and coverages, including up-to-date educational resources for students in need of immediate care and treatment.
- The UnitedHealthcare Provider Network offers students the most extensive in-network care on the market while at school, home, or anywhere else in the world.
- Member schools of any size can review and participate in this exclusive plan.
- Unlimited Telemedicine and Mental Health services are included in the plan at no additional charge to enrolled students and their dependents.
- Fully compliant and affordable plans keep students' out of pocket expenses low and address the needs of all students, domestic and international, including those in medical and health services, athletes, visiting scholars, and ESL students.

FirstRisk Advisors for Full-Service Student Health Insurance Solutions

FirstRisk Advisors is all about making student health insurance more accessible and more affordable for member schools. Our turnkey online system, the Partner Center, notifies, waives, and enrolls students in your SHIP with ease. Very little is required on the school's end, and we're still available to help with questions, concerns, and additional support 24/7. Programs pricing is net of any commissions or fees for schools that want to work directly with us for the best pricing possible. If your school utilizes the services of an insurance agent, we can easily price in any payments necessary for them as well.

As a Coalition partner for more than seven years, member schools can rest easy knowing their dedicated Account Manager is available to optimize every single aspect of a plan with schools and their students. When conditions permit, we're happy to attend orientations to personally waive and enroll students into the plan and inform and educate students and parents on the many included benefits.

FirstRisk Advisors is pleased to be the exclusive provider of the Coalition Program for all state associations. If you would like more information or to schedule a virtual meeting to review and discuss the unique advantages of the Coalition student health insurance plan for your school, contact Al Marinucci at:
