

# Doctums

## Management & Technology Consulting for **Higher Education**

We empower higher education institutions and EdTech companies with expert consulting services that optimize institutional strategy, technology governance, and business processes.

### Comprehensive Access to Higher Education Expertise

#### Advisory Services

Project-based consulting that bridges the gap between strategy and execution, helping institutions make informed decisions and achieve measurable success.

Ongoing support through fractional or full-time dedicated resources, ensuring operational excellence and long-term institutional impact.

Focused on outcomes and the constituent journey, we drive transformation that enhances the student experience and institutional effectiveness.

#### Technology Solutions & Partnerships

Doctums curates and delivers a suite of best-in-class technology solutions tailored for higher education. Our partnerships enable institutions to adopt modern, cost-efficient systems that drive operational efficiency.

We offer expertise in implementing and optimizing Student Information Systems (SIS), Enterprise Resource Planning (ERP) solutions, and Scholarship Management platforms.

With deep experience across multiple vendors and products, we help institutions select, integrate, and maximize the value of their technology investments.

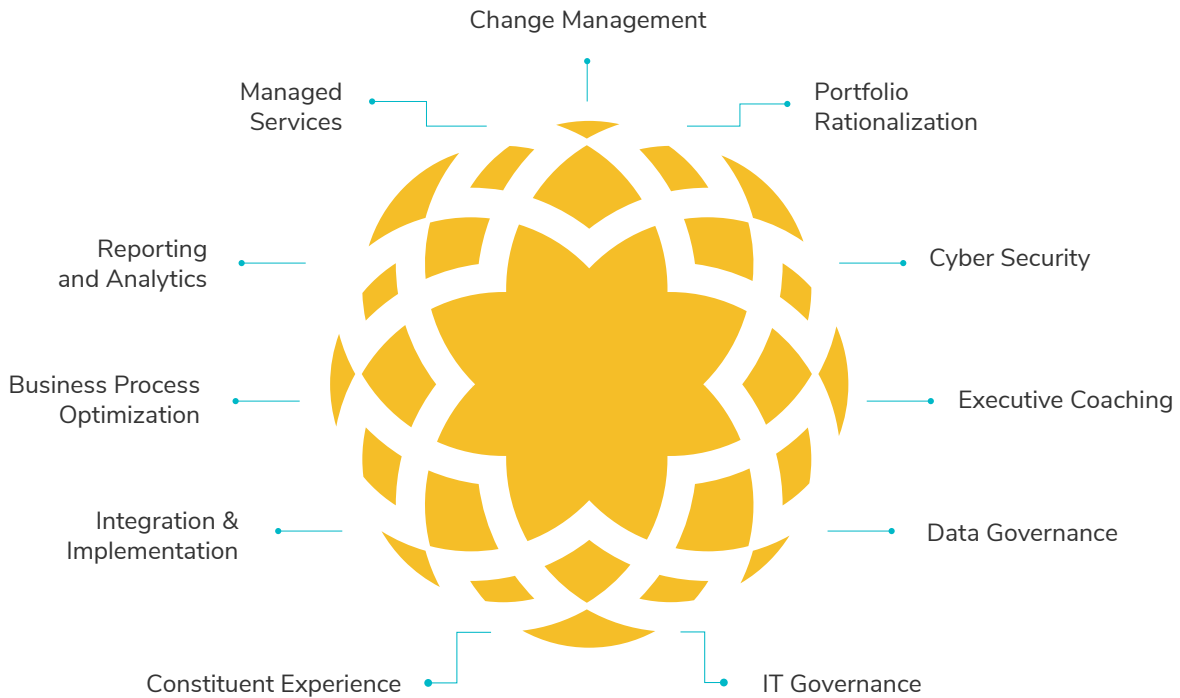

### Higher Education **Expertise at your fingertips**

Doctums is the trusted partner for institutions navigating IT strategy, governance, technology portfolio management, legacy system support, and digital transformation. Our global team of experts ensures that institutions receive strategic, operationally sound, and results-driven solutions.

## Optimizing the Student Lifecycle & Institutional Success

We collaborate with institutions to optimize student and operational experiences. Our expertise spans:

### A Future-Ready Approach to Institutional Transformation

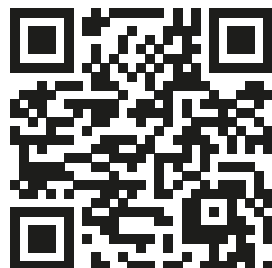

At Doctums, we go beyond consulting—we partner with institutions to drive measurable, lasting impact. Our solutions accelerate transformation by combining deep industry expertise with a platform approach that reduces complexity and enhances efficiency.

### Why Doctums?

**Global Reach with Local Expertise:** Offices in the USA, Canada, and Chile, serving institutions across the Americas.

**Strategic & Technical Depth:** Former institutional leaders, EdTech experts, and seasoned consultants working together to drive success.

**Outcome-Driven Approach:** We focus on achieving institutional goals, improving operational efficiency, and enhancing the student experience.

Where **higher education strategy** and technology come together, Doctums leads the way.
