

Graduate to Convenient, Affordable Health Care

Health care insurers report continued rising premiums into 2016, with claim trends exceeding general inflation for at least the next 18 months.¹ Now is a great time for private colleges to leverage the buying power of their membership in The Coalition.

Our Goal: Healthy Members, Stronger Institutions

The goal is simple – to better serve students, faculty and communities by helping to improve health and wellness, ultimately enriching higher education.

With UnitedHealthcare, we can now offer your members the most competitive self-funding health benefit programs for faculty and staff available in higher education.

Through our partnership with UnitedHealthcare, The Coalition has been providing affordable and sustainable health care benefit programs to your members since 2013. Today, we are re-launching this partnership with new products designs, innovative network and payment options, and more effective member engagement in the management of their own care. This exciting opportunity is designed to improve health while strengthening your institution's bottom line.

Stability. Support. Savings.

Put the combined experience and resources of The Coalition and UnitedHealthcare to work for your members, who benefit from:

- ✓ Exclusive pricing
- ✓ Advanced analytics
- ✓ Innovative resources and solutions
- ✓ Efficient administration
- ✓ A commitment to quality

UnitedHealthcare plans offer unparalleled support, convenience and affordability, including:

- 2016 administrative fees locked at 2013 levels.
- Recalibrated pricing on all clinical and wellness programs, including Rally[®], UnitedHealthcare's new digital health and wellbeing experience.
- Integrated pharmacy benefits from Optum Rx with a portion of manufacturer rebates paid to the institution.
- Availability of The Coalition's unique College Care PhD (Personal Health Drivers)
