

“With Paymerang you have nothing to lose and everything to gain. If you don’t take advantage of what they offer, you are literally walking away from cash.”

— Terry Manis, VP of Finance & Accounting and Financial Analysis

Turn Accounts Payable into Accounts Profitable

Paymerang is an innovative payments solution for AP departments that transforms supplier payments into a new stream of revenue. By enrolling your suppliers in electronic payments, we can earn cash-back rewards that can put \$50K on average back in your pocket each year.

We process more than \$1B in payments annually for clients around the country in education, healthcare, media, manufacturing, services and beyond. Our payment network spans 40,000+ suppliers from coast to coast, with 75% receiving electronic payments over traditional checks.

Paymerang is Simple

Paying suppliers has never been easier. We’ll take care of enrolling your vendors, processing all payments and handling reconciliation and follow-up.

Paymerang is Secure

We go the extra mile to protect your payments—enrolling your suppliers online, encrypting their bank account information and storing it on your behalf.

Paymerang is Profitable

Our virtual cards offer cash-back rewards that are paid quarterly and cover transaction fees, meaning there’s never any out-of-pocket expense for you.

HOW IT WORKS

You upload

During implementation we match or enroll all your vendors in our database. When it's time to pay them, all you have to do is upload your check file.

You fund

Once you've uploaded your file, you can review your batch to make sure it's correct, and fund all your payments with the touch of a button.

We remit

Using innovative payment decisioning technology, we remit payment and remittance details to your vendors via email, fax, telephone or online.

We reconcile

We reconcile your virtual card, ACH and check payments. Any canceled or refused payments are promptly refunded back to you.

We pay cash rewards

Every quarter we issue an ACH credit to your account and provide a detailed statement showing rebates, transactions and dollars processed.

WHAT YOU GET

Greater efficiency
through processing
and payment
reconciliation

Greater security
through encrypted
account data and two
levels of authentication
